

# TURNU PARTLARI

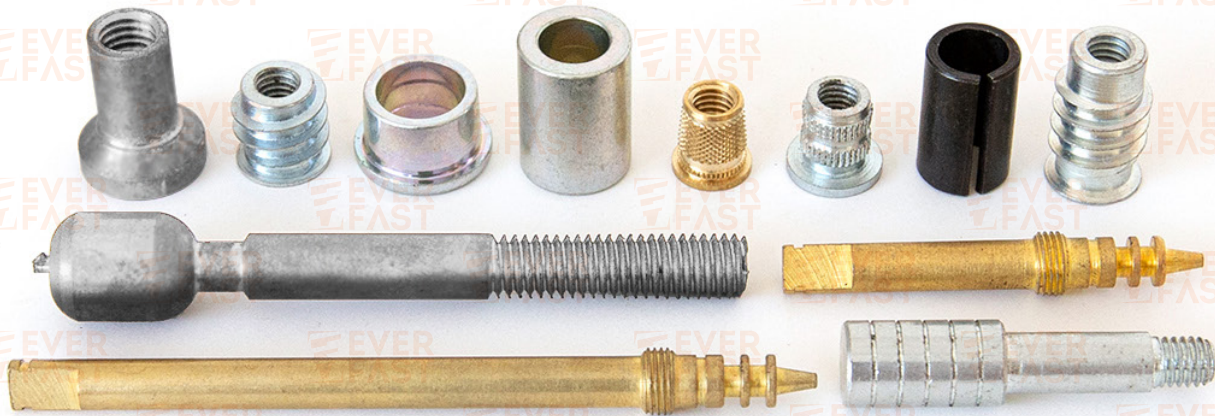

With rich number of machinery EverFast is in very strong position to supply wide range of CNC turned parts and machined components.

Aware of how crucial sensitivity of production we operate quality checks from receipt of goods through to dispatch to the customer. With latest technology measurement equipments allow components dimensions to be measured to within 0,04 microns.

Available Materials: Mild and Carbon Steels, Steel Alloys, 300&400 Series Stainless Steel, Brass, Copper, Aluminium.

Machine Park: CNC Lathe, Transfer Machine, Auto feeding Machine, Multi and Single Spindle Lathe.

No matter what material and industry applications are, we certainly have capabilities needed to manufacture turned parts to your exact requirements.

All the EverFast treatments are carried out in full respect of the environment, in compliance with the RoHS and Reach standards, and are free of chromium (VI).

**Surface treatments:** white, yellow, black, iridescent high-strength zinc plating, zinc-nickel plating, zinc-iron plating, nickel plating, copper plating, tin plating, geomet coating, sealing, lubrication, dehydrogenation, self-locking, stainless steel polishing, blacking - burnishing.

Other treatments on request.
